Stéphane Cabaret

Web development, computer graphics and gastronomy

in Linkedin:
https://www.linkedin.com/in/stefcab

Full stack developer, with more than 10 years of experience. I am a computer geek, I learned to code at a young age in various computer languages (Basic, JavaScript, PHP, Python...). Working independently and in teams to write code for various applications. And creating 3D images and illustrations (Cinema4D, Photoshop, Illustrator).

Versatile, I master the different technical stages of creating a website or web application; from understanding user needs, to frontend and backend development and maintenance.
